HealthLineBlue™

24-hour support for minor health issues

NEED CARE FAST? Making the right choice matters

A misstep while jogging. An odd rash with no other symptoms. The intersection of the car door and your thumb. It hurts, but is it serious?

We know: It's tough to tell. So whether you need tips on symptom relief at home, guidance on finding immediate medical care in urgent situations or information about your overall health, your health plan gives you convenient and cost-effective options.

Possibly the fastest way to have one of your health care questions answered is to call a trained nurse with Health Line Blue.⁴ Another option would be to call your plan's telehealth provider,⁵ where doctors are able to diagnose minor health issues and prescribe medications. These registered and licensed professionals are available 24/7 to weigh in on minor conditions like:

- Addictions
- Anxiety
- Cough, cold and flu
- Depression
- Minor allergic reaction
- Possible strain or sprain
- Sore throat
- And more

Contacting Health Line Blue or your plan's telehealth provider is easy. Just call the toll-free number on the back of your member ID card.

Remember: If you're facing an issue that threatens your life or health, never hesitate to go straight to the emergency room!

Comparing convenience and cost of care			
	Avg. Member Wait Time to Start a Consult/Visit (can vary) ⁶	Total Visit ⁷	Avg. Member Cost ⁸
HEALTH LINE BLUE	61 seconds	9 minutes	\$0
TELADOC® (Telehealth)	36 minutes	Varies based on needs	\$55 or less visit fee for general medicine ⁹
URGENT CARE	30 minutes	60 minutes ^{**}	\$37
EMERGENCY ROOM	Less than 2 hours	2 hours & 35 minutes	\$\$\$\$ \$442

* Cost per consult based on your health plan's office visit copay or coinsurance amount, but no more than \$55. The average member cost for telehealth visits assumes Teladoc is the provider.

** Wait time at urgent care centers can be significantly reduced by making an appointment.

DELIVERING SERVICES that enhance your life

Telehealth⁵ – acute care

Telehealth is a convenient and effective way for members to get care. With telehealth, board-certified doctors are able to diagnose symptoms, prescribe non-narcotic medication and send e-prescriptions to the patient's pharmacy. Members can consult with a doctor by phone or video 24 hours a day for minor acute care.

Telehealth⁵ – behavioral health

Behavioral health and substance use disorder services are available by appointment seven days a week. Members connect by computer, tablet or mobile app to secure sessions with trained, licensed professionals providing counseling and behavioral health services.

Diabetes support

Even though there is no cure for type 2 diabetes, research shows the disease can be reversed to the point that medication is no longer needed to manage blood sugar levels. Blue Cross NC offers eligible members access to programs designed to fight and overcome this serious condition.⁹

Tobacco cessation

Blue Cross NC offers members access to two different programs proven to increase the chance of quitting.⁹ Both programs include one-on-one support and nicotine replacement therapy at no additional cost. Learn more at BlueCrossNC.com/Quit-Now.
